

## **Taoyuan International Airport New Destination Incentive Programme**

I. The new destination incentive programme is developed by Taoyuan International Airport Corporation Ltd (TIAC) to foster the network connectivity of Taoyuan International Airport (TPE) by encouraging airlines to launch new destinations to/from Taoyuan International Airport.

### II. Definition:

1. **New Destination:** the non-stop scheduled flight to the destination airport which has not been served at TPE within one year before the date of application. The record is according to reports issued by CAA.
2. **Application Date :** the date of acceptance confirmed by TIAC and shall be before the flight launch date

III. **Application Period:** upon announcement to 31st December 2018

IV. The programme applies only when the following conditions are fulfilled:

1. The flight is non-stop and of scheduled service.
2. The flight destination conforms to the definition of new destination listed in the programme.
3. The flight will be in operation within three months after receiving the official approval from TIAC.

### V. Details:

1. A 50% discount on Landing Charge will be provided to all new destination flights which have met the above-mentioned conditions. According to Taoyuan International Airport Corporation Ltd. Airport Facility Use Rate, flights arriving and departing between 0:00 and 04:59 a.m. (same day) have already been given a 50% discount. Therefore a 50% discount on Landing Charge offered by the new

destination incentive programme does not apply.

2. New destination flights arriving and departing between 0:00 and 04:59 a.m. (same day) with actual turnaround time less than two hours will be given a 50% discount on Boarding Bridge Charge.
3. Landing and Boarding Bridge fees are charged according to TIAC Airport Park Facility Charges Basis and TIAC Airport Facility Use Rate approved by the Ministry of Transportation and Communications.
4. Promotion Period: the airline will receive incentives for one year since the date of official approval issued by TIAC. TIAC reserves the right to amend the details of the program during the promotion period, and would consider extending the promotion period subject to TPE operational performance. The extended promotion period is up to one year. When the airline fails to meet the listed conditions or ceases operation, TIAC reserves the right to suspend incentives.

VI. Application Process:

The airline is required to submit a copy of Air Route Certificate issued by CAA and filled application form to TIAC in the application period.

VII. The programme applies to new destination flights with schedule change but remaining regular service.

VIII. During the application period, TIAC reserves the right to extend and suspend the program according to budget status. The program is effective upon announcement. TIAC may amend program details once it is required.

IX. The official contact is the Business Planning and Marketing Department of TIAC.
